

Advice for cleaning and disinfecting ATTENTIVE devices

Multi-surface cleaner

1. Use a microfiber rag soaked in a multi-surface disinfectant liquid without bleach.
2. Do not apply any liquid or disinfectant directly to the device.
3. Clean gently, avoiding any product from seeping into the openings of the device.
4. To ensure the durability of the logo markings and preserve the color of your device, we recommend avoiding alcohol-based disinfectants.

Multi-surface cleaner

White vinegar
(few drops)

Soapy water
(On a well-wrung rag)

90° Alcohol

Hydroalcoholic solution

No type of solvent

Useful Tip ! Use a white eraser to remove scuff marks from white devices surfaces.
